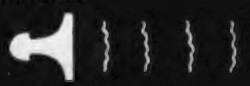
Do Not Pull Building Fire Alarm Boxes Except for Fires Out of Control

Fire
or Building Emergency

A series of short electric horn blasts for about one minutes



Horn blasts are coded to indicate general area of emergency (see code below)

Evacuate the Building

1. Interpret alarm location from code.
2. Secure classified material.
3. Take personal belongings.
4. Leave office, close door.
5. Evacuate to plaza level—using stairwells. DO NOT USE STAIRWELL IN QUADRANT UNDER ALARM
6. Go to opposite side of nearest street, wait for warden's "ALL CLEAR."
7. "Elevators may not be used during fire or electrical emergencies".
8. "Handicapped personnel follow warden instructions".

Attack Warning

Instructions to building occupants will be made over the public address system

Outside siren wavering signal for 3 to 5 minutes

Evacuate the Building as for Fire Emergencies

Go to marked public fallout shelter areas in GSA Regional Office Building or the HUD Building.

JUST ARRIVING?
CHANGED YOUR NUMBER?
CHANGED YOUR NAME?
MOVED YOUR OFFICE?
LEAVING?

IF SO—REMEMBER TO:

COMPLETE DOT FORM 1700.1 as shown below for Additions, Changes or Deletions to this Directory. Your Telephone Directory should reflect any changes in your status. Please keep it current. The information provided by the organizations listed herein is only as accurate as the information furnished.

CHANGES

Alphabetical Directory

While every effort is made to improve each issue of the telephone directory and to eliminate all errors, the Library and Distribution Services Division, M-49, cannot assume responsibility for errors in listings or omissions resulting from submission of incorrect data.

EACH ADMINISTRATION IS RESPONSIBLE FOR THE ACCURACY, COMPLETENESS AND TIMELINESS OF ITS OWN DATA.

After you have had an opportunity to validate your own listing in this directory, submit all changes, additions, and deletions to your Telephone Directory Representative for your administration, (found in the Directory of Services), by completing DOT Form 1700.1 as shown below, so that each listing will be entered correctly in the next issue.

To lessen the possibility of errors, it is always helpful if you report any changes in the present telephone listing as soon as their need becomes known. This will avoid the possibility of waiting too near the closing date, and your not getting the necessary change information in the next directory issue.

TYPE OR PRINT ALL INFORMATION

DOT Form 1700.1 includes a box headed "Social Security Number." Public Law 93-579 (Privacy Act of 1974) includes specific requirements pertaining to requests for individuals to disclose their social security numbers.

Disclosure by you of your Social Security number is voluntary. It is used in the process of producing the DOT Telephone Directory and will not be published or disclosed. Failure to provide your Social Security number may result in inability to print your name in the Telephone Directory. Solicitation of the Social Security number is authorized under the provision of Executive Order 9397, dated November 22, 1943.

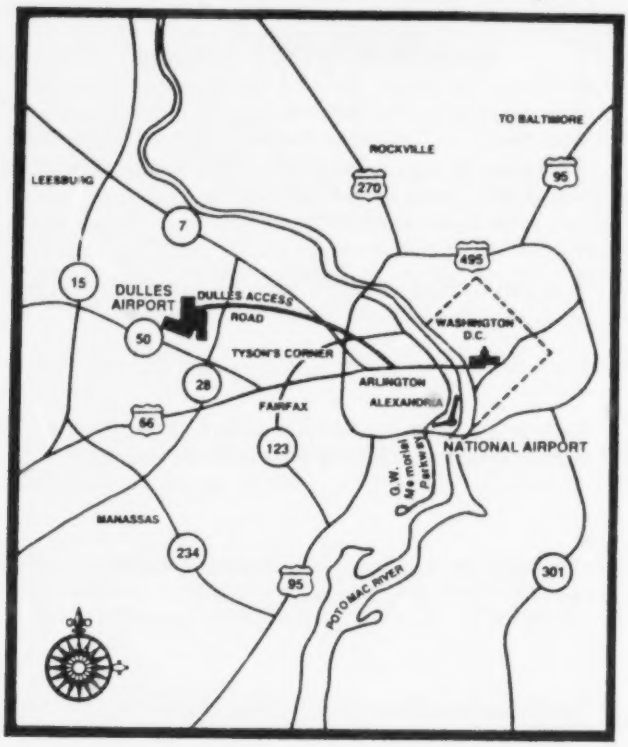
Washington Dulles International Airport



Washington Dulles International Airport is located in Virginia 26 miles from Washington, DC with easy access to the Washington Metropolitan area via limited access expressways. A new 3 mile extension to the Dulles Access Road has recently opened. This extension links the Access Road with Route 66, thus increasing accessibility to and from the Airport.

Washington National Airport is located in Virginia 4.5 miles from downtown Washington. A variety of transportation modes also make Washington National easily accessible to the entire Washington Metropolitan area as well as Dulles International Airport.

These building diagrams are to serve as a guide for personnel reporting to or visiting Coast Guard Headquarters.

The Coast Guard occupies floors 1 through 6, Building Management and the Department of Health and Human Services occupy the ground level which is the street level.

The rooms on floor 1 through 6 are sequentially numbered from 1100 to 6400, etc. The first digit in all room numbers designates the floor; the second digit indicates the corridor (see circled numbers in diagrams for corridor location). The last two digits are the room number on that corridor. Sometimes rooms have a letter added. These letters represent different rooms or cubicles within a given room number.
